

## 2007–2009 Draft Statewide Transportation Improvement Program

*This is your opportunity to comment on Montana's Transportation Projects.*

The Montana Department of Transportation has released a draft of the 2007–2009 Statewide Transportation Improvement Program (STIP). MDT wants your comments and ideas on these projects.

The STIP is a list of most, but not all, major transportation projects planned

for Montana for the next three federal fiscal years. It includes aeronautic, rail-way, highway, public transportation, and federal lands highway projects.

The primary goal of the draft STIP is to solicit public comment on the proposed transportation program for Montana.

Each year, MDT receives many helpful comments and innovative ideas from

the public on transportation-related issues. We carefully consider and respond to these comments and strive to incorporate them into the Department's decision-making processes.

We encourage the public to comment on this list now or anytime throughout the year as various transportation issues may arise.

To locate the major projects listed in the draft STIP (those costing over \$200,000), please refer to the map in the center of this issue of *Newsline*.

## TranPlan 21 Amendment Due This Summer

In 2005, Congress passed the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). SAFETEA-LU and the subsequent federal regulations, released in February 2007, included several new planning requirements that require a limited amendment to *TranPlan 21*, Montana's statewide transportation policy plan. Some of these requirements include:

- Additional use of enhanced visualization techniques in public involvement processes.
- Consideration of transportation system security issues.
- Incorporation of capital, operations and management strategies, investments, procedures, and other measures.

- Consistency with other planning documents.

SAFETEA-LU established an aggressive deadline for states to modify their transportation plans to comply with the new federal requirements. MDT has therefore hired the consulting firm of Cambridge Systematics to help the Department complete the 2007 *TranPlan 21 Amendment* by late summer. The amendment effort will include opportunities for the general public and interested agencies and groups to participate.

Watch for updates on the amendment process in future editions of *Newsline*, or visit [www.mdt.mt.gov](http://www.mdt.mt.gov), call 800-714-7296, or e-mail [mdt\\_TP21\\_2007@mt.gov](mailto:mdt_TP21_2007@mt.gov) for more information.

## Commenting on Other Projects

Throughout the year, MDT submits projects that are not on the STIP list to the Transportation Commission. To view the list of highway projects MDT plans to present at the next Transportation Commission meeting, go to [http://www.mdt.mt.gov/pubinvolve/docs/trans\\_comm/proposed\\_proj.pdf](http://www.mdt.mt.gov/pubinvolve/docs/trans_comm/proposed_proj.pdf).

If you prefer to receive the list by mail, call us toll-free at 800-714-7296.

You can also mail your comments to the following address or e-mail them to [mdtnewprojects@mt.gov](mailto:mdtnewprojects@mt.gov).
